

# BALTIC Network of observation resolution pressure

*Lars Barring*, Lund University, Sweden

in collaboration with

*Zbigniew Ustrnul*, IMGW, Poland

*Tadeusz Niedwiedz*, Silesian University, Sosnowiec

*Janina Trepinska*, Jagellonian University, Cracow

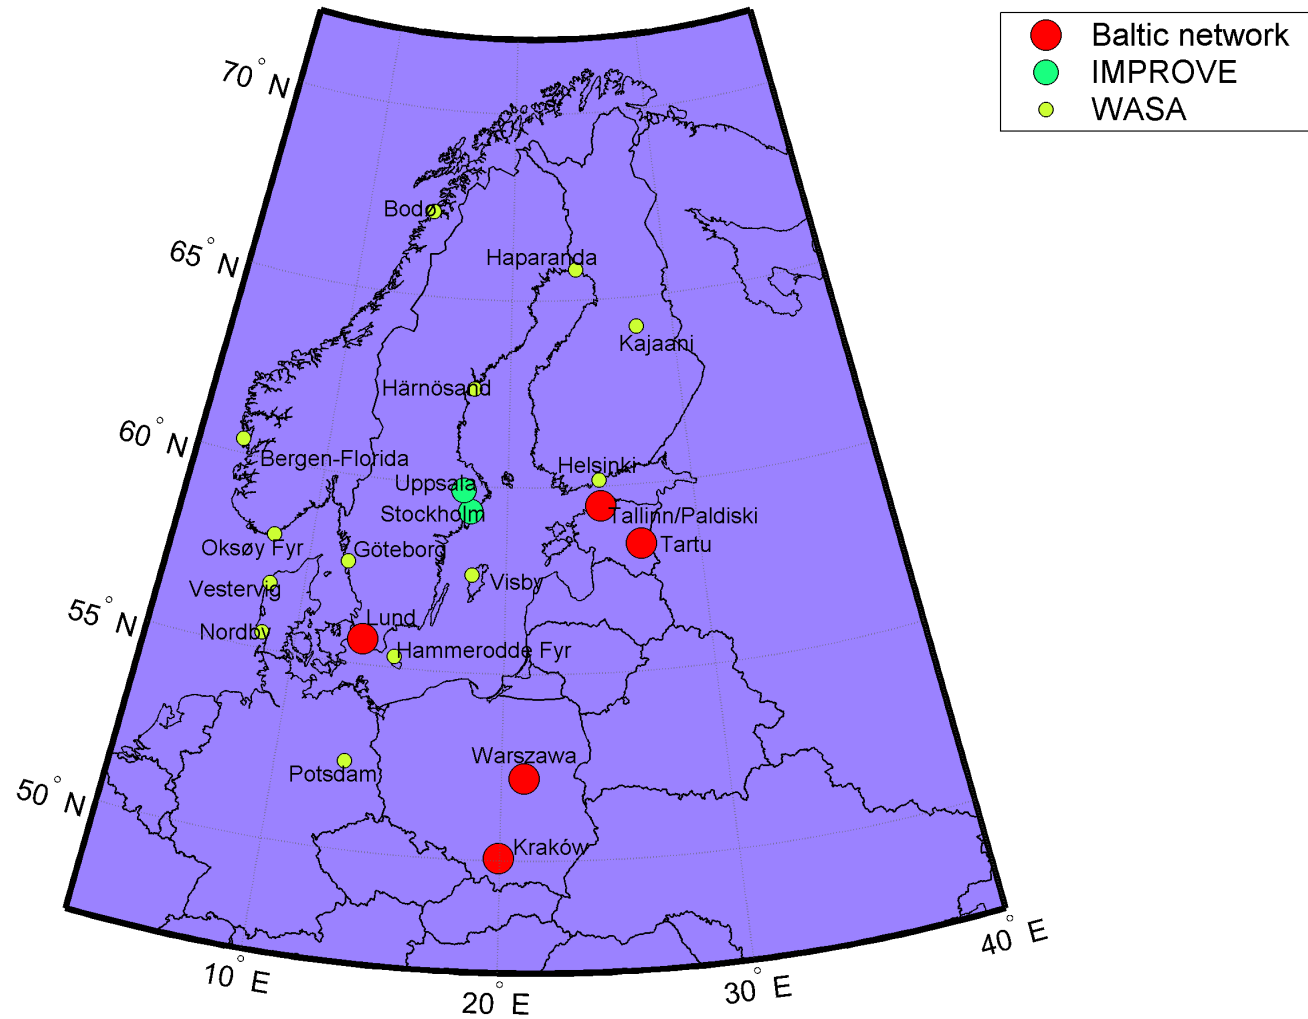

*Krzysztof Fortuniak*, Lodz University

*Jaak Jaagus*, Tartu University, Estonia

*Helve Meitern*, Tallinn Botanical Garden

Funded by the *Swedish Institute*

## Observation-resolution surface air pressure and temperature

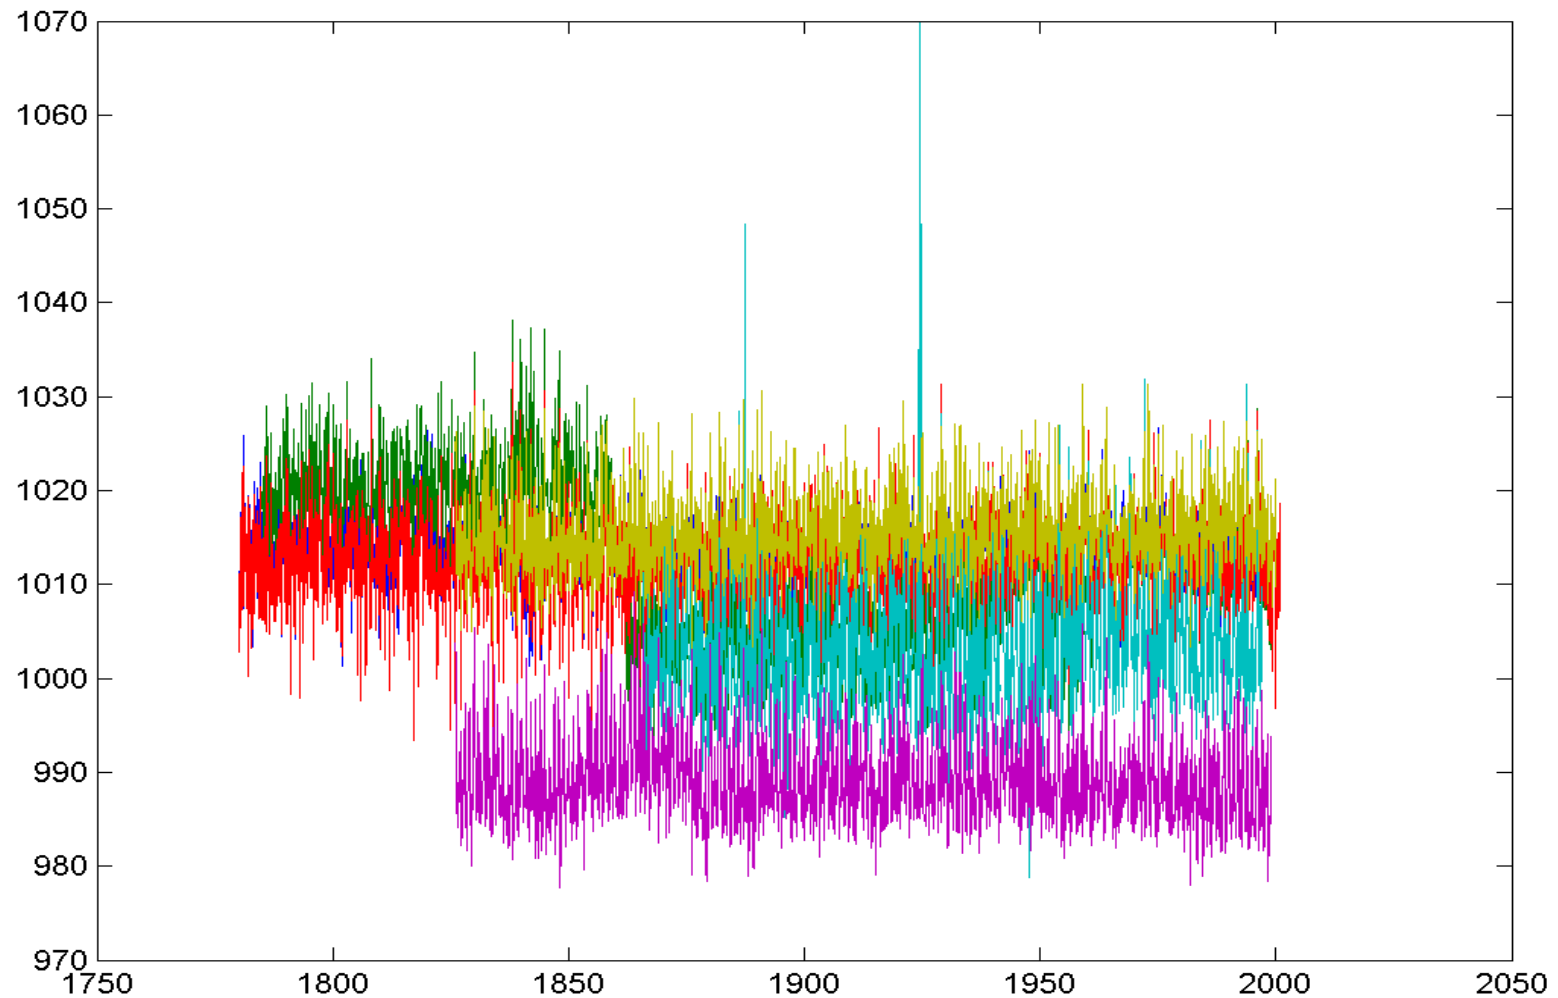

LUND  
UNIVERSITY

L. Barring: *BALTIC Network of observation resolution pressure AOPC Surface Pressure Group Workshop*, UEA, Norwich 21-22 November 2002

- Lund:** 1740-present
  - done:* P, (T) back to 1780 (ADVICE project)
  - remains:* P, T 1740-1779 and all weather obs.
- Tartu:** 1865-present (some older data)
  - done:* P, T back to 1865
  - remains:* quality control
- Tallinn/Paldiski:** 1835-present (some gaps)
  - done:* most P, T, still gaps
  - remains:* quality control, fill gaps, weather obs.
- Warsaw:** 1826-present
  - done:* P, T back to 1826
  - remains:* quality control, some older data
- Krakow:** 1826-present, but very long series
  - done:* P, T back to 1826, most weather obs.
  - remains:* quality control, some older data

## Straight monthly pressures without homogenisation and with various degree of instrument corrections

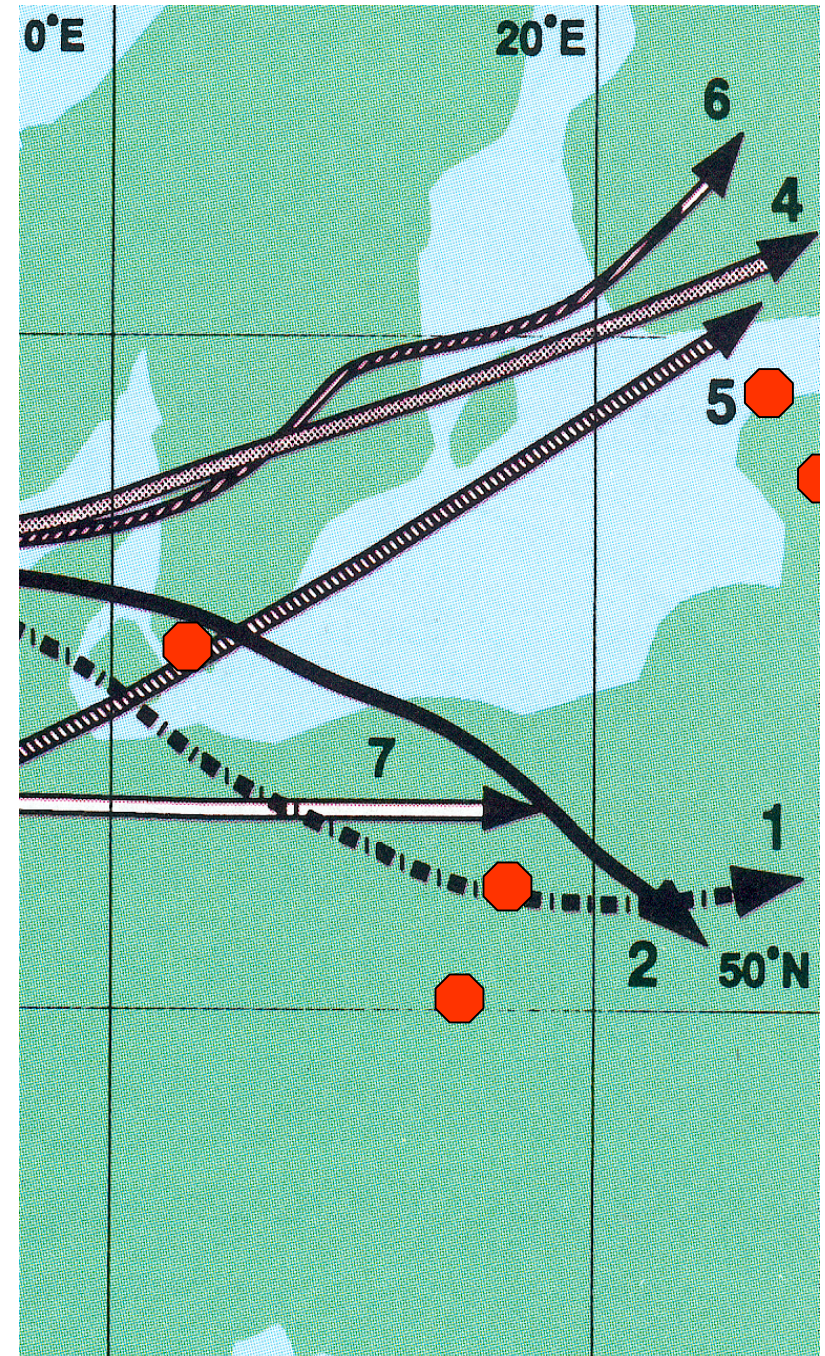

LUND  
UNIVERSITY

L. Barring: *BALTIC Network of observation resolution pressure* AOPC Surface Pressure Group Workshop, UEA, Norwich 21-22 November 2002

# Conclusion

- Much of the data entry done
- Quality control not completed but very promising
- Relevant addition to European network of very long series
- Interesting regional applications
